FIRMNESS ON MARKET

Tone Yesterday Showed Much Confidence Over the Prospect for Values.

A DROP IN METROPOLITAN

Advance in United States Steel Preferred Proved Helpful to the Situation.

(By Associated Press.)

NEW YORK, June 20.—The tone of the stock market to-day was plainly firm and confidence over the prospect for values was thereby fostered. News bearing upon values was slight, but in the absence of values was slight, but in the absence of values developments and with preconfidence over the prospect of threeby fostered. News bearing upon values was slight, but in the absence of threatening developments and with protection aforded to Southern Pacific, there was no urgent pressure to sell. The circular issued by the President to stock-holders, in explanation of the proposed preferred stock issue seemed to make a froventio impression on sentiment and was followed by the rise in the stock to 45.34. This was a sensible relief to the general market. The possible unsettling effect of the sharp drop in Metropolitan Street Railway also seemed neutralized by the strength in Manhattan and in Brocklyn Rapid Transit, the latter on reports of the marketing of additional bonds by the company. The movements in Metropolitan and Manhattan were based upon the assumed results to the business of the two systems of the coming opening of the subway system.

There were also rumors of further bond issues by the Metropolitan Company. An advance in United States steel preferred was helpful to the market at targe and was connected with an agreement on wage schedules with a portion of its employes and reports of a decision to maintain prices for steel rails. Weekly estimates by railroad officials over traffic, were little changed from the recently prevailing tenor, but they showed no conditions worse.

Confidence in the condition of crops was unimpaired, faithough there was some complaint of rains in felt in the whest market.

COTTON MARKETS.

NEW YORK, June 20.—The cotion market opened steady at an advance of 325 points on the old crop, while the new crop was 2 points in the old crop, while the new crop was 2 points and the old crop, while the new crop was 2 points due to rather better cables than expected, accompanied by very builish private advices from Liverpool to the effect that advance was probable on the theory that the market was oversold. The early weather reports plotted in were almost ideal, showers was beginning to give ground for some complaint, and after some troquiarity around the opening figures the market turned very weak under aggressive scelling by the South and larke local room traders. There were occasional slight reactions during the balance of the session, but as a seneral thing the list ruled very weak, particularly on the old crop months, whose premiums over the later positions were all further reduced. The lowest components were all components are the later positions were all components of a components of the later to the control of the session, but was in the later traditions of the session, but as a general thing the list ruled very weak, particularly on the old crop months, whose premiums over the later positions were all components at 2, these being net declines on the old crop of 27942 paints and of about 18 points on the later toositions. Toward the close the market railied slightly on room covering, and was finally steady at a net loss of 24857 honis on the old crop and of 15gri points on the new room on the set of the session of the session. being months. Sales were established to be ales.

After continuing steady inmediately following the local opening Liverpool weakned and closed at about the proper figure. It was reported during the day that market dealers were buying openingly in New Orleans, but the South was a free solor in the local narket during the entire session as a result of the extension of the contraction of the c
